MEMORANDUM FOR: Deputy Director/Intelligence

THROUGH : Acting Chief, Geographic Research
Assistant Director for Research and Reports

SUBJECT : Papers Suggesting Idealizations and
Difficulties of the Present U. S.
Photographic Intelligence System

1. As verbally requested of the undersigned on 14 April 1964 two papers suggesting idealizations and difficulties or shortcomings of the present U. S. photographic intelligence system have been prepared and are attached hereto.

2. It is estimated that little chance might exist at the present time for the establishment of a JAPIC proposed as idealization number III a 2.

3. It is pointed out that some of the idealizations listed are already being worked out without formal directives.

4. The undersigned is prepared to discuss or expand upon the points listed if such clarification is needed.
